

Best Season: April to November

The road leads out of Manali town and after crossing the main bridge over the River Beas we walk uphill towards the Vashisht village 3 Kms away on a well defined path. After walking through the ancient village with some impressive traditional architecture, we pass the temple and the hot sulphur springs and baths to follow a path with a slight incline. It takes about 1 hour to reach these magnificent falls. Enjoy an energizing dip under these cascading falls and have your packed lunch while admiring the towering snow clad mountains all around. We return the same way to Vashisht and Manali by evening.
